What we've seen work with Giving moments

What We've Learned about Giving

Generous people are generous.

People want multiple ways to connect with causes.

Giving ONLY money is smallest group.

2022: What we know

- Givers relate to causes not organization
- People give with heart rather than head
- Givers need simple ways...but engage them on their terms not just ours to build relationships

An Abundance Mindset

Creating your campaign for an
upcoming giving moment.

Use **Campaigns** to Maintain Engagement

Raising a specific amount of money | specific project/need | specific timeline

What makes a campaign successful?

- Sense of urgency
 - Clear goals
 - Deadlines
- Relatability
- Incentives

Summary

Many women in rural India suffer violence and harassment at the hands of their families. There is a dire need to provide shelter for women who receive no support. Since 2004, Seva Mandir has been running a shelter home for women mainly from Udaipur district (though also for women from all over India) who have suffered abuse. The Shelter offers support and rehabilitation, counselling services, legal aid, medical and psychological care (at home or in hospital), skills development, and more.

HELP International
November 28, 2018 · 3

There are 68.5 million forcibly displaced people worldwide and 25.4 refugees. Those are big numbers in a big crisis. It can be overwhelming to figure out a way to help the millions of people affected in the refugee crisis. It's easy to feel small compared to the huge numbers, but it's important to remember that helping one person can make a big difference.

To start the holiday season right, we have created a giving Tuesday fundraiser to help the refugees in Lesbos, Greece. Rather than fundraising for HELP International, we have decided to fundraise for @teamhumanity, another organization making a big difference in the big crisis. Donate a couple of dollars and pass the fundraiser along to help us reach our goal by the end of the day! Link in bio. [See Less](#)
